

Trinity Primary School

P4 Weekly Bulletin

Class: P4M, P4S and P4G

Date: 21.9.18.

This week's Trinity Superstars from P4 are:

This Week

This week we started our new science topic, Drip, Drip, Drip. We learned the difference between the three states and carried out an experiment to investigate water in two of these forms.

We used our science learning as inspiration to write a shape poem about water. The poems took many shapes including rain drops, umbrellas and even wellie boots! We have continued to develop our comprehension of our reading books by writing an alternative ending.

We learned to play the C chord and F chord on the ukulele. Holding the strings on different frets changes the sound!

We have explored the volume of different containers in maths and have been practising the 2, 5, 10, 3, 4 and 6 times tables.

In French, we have been revising the colours by playing interactive games including bingo, pairs and hangman.

Melville and Royston had their first Trinity Together of the year this week which focussed on sustainability.

Next Week

The Trinity chickens will be arriving soon and we need lots of empty egg boxes. These will be used to package the eggs for selling. Please pass to your class teacher.

Craighall and Argyll will have their first Trinity Together of the year which will focus on different aspects of sustainability.

We are looking forward to our basketball taster session on Thursday.

P4M - please remember to bring a swim suit, towel, a swimming cap and packed lunch on Wednesday.

Please note that this bulletin is available to view online at the Trinity Primary School website: trinity-pri.com

It can also be viewed through the window of the P4M classroom, which is on the ground floor of the chalet.
